

Visual Paradigm is the *World's leading visual modeling platform provider* that helps you create perfect quality process improvement documentation. Business Process Visual ARCHITECT (BPVA) inherits the world-class, award-winning visual modeling technology from our flagship product Visual Paradigm for UML (VP-UML). BP-VA helps you quickly and easily document your business processes to reduce costs and increase productivity, using the simple, OMG's standardized Business Process Management Notation (BPMN). BP-VA also generates XML and BPEL codes that can be shared, used and executed by many applications. Its supreme editing capabilities let you experience a real zero learning curve, making diagramming an enjoyable task and as a result, compressing your development time frame and maximizing your ROI. Start now to realize the instant high-quality results with BP-VA today!

### Powerful and Easy-to-use GUI

Now developers can create BPM diagrams much faster than any tool on the market through Visual Paradigm's most intuitive resource-centric and mouse location sensitive GUI. Tidying up your complex and messy diagrams is just a matter of one mouse click by using BP-VA's automatic diagram layout technology, yet the unique gesture editing capability makes diagramming a fun task.

### Team Development and Report Generation

Teamwork Server enables your software developer teams to work on the same projects in parallel. BP-VA also helps developers to eliminate tedious document preparation with automatic report generator that supports for popular HTML, MS Word and PDF report generation and publishing.

### Extendibility and Custom Design Support

Extending BP-VA capabilities beyond the latest BPMN notation is no longer a dream! Now, BP-VA allows you to design new notation or incorporate custom shapes or symbols by using our embedded shape editor, image icon import or Visio integration capability.

## Key Features

- |  |                                   |
|--|-----------------------------------|
| 1. Business process diagram                | 2. Overview diagram               |
| 3. Export business process diagram to BPEL | 4. Team collaboration (client)    |
| 5. PDF, MS Word, HTML report generation    | 6. Import/export to XML and image |
| 7. Shape Editor — design your own shapes   |                                   |

## Pricing

Prices are provided in US dollars

<p><b>Single Seat License</b></p> <hr/> <p>Unit price <b>\$99.00</b></p> <p>Unit price with 1 year maintenance <b>\$118.50</b></p> <p>1 year maintenance cost 20% of unit price.</p>	<p><b>Floating License</b></p> <hr/> <p>Unit price <b>\$128.50</b></p> <p>Unit price with 1 year maintenance <b>\$154.00</b></p> <p>The price of Floating License is calculated in 30% more of the single seat license.</p> <p>To know more about floating license, please visit Floating License page at <a href="#">here</a></p>	<p><b>Software Maintenance</b></p> <hr/> <p>Extend 1 year maintenance</p> <p>Single Seat License <b>\$19.50</b></p> <p>Floating License <b>\$25.50</b></p> <p>All version upgrades of Visual Paradigm products are included as part of software maintenance. Customers are entitled to get all version upgrades within their software maintenance period.</p>

## Detail Features

Business Process Modeling	
1.	Business process diagram
2.	Overview diagram
3.	Export business process diagram to BPEL
4.	Automatically stretch pools and lanes to fit diagram
5.	Smart routing for connecting objects
6.	Extend business process model with stereotype and tagged value
7.	Set state for data object
8.	Nested lanes support
Visual Modeling	
1.	Freehand shape support <b>NEW</b>
2.	Justify shape name <b>NEW</b>

3. Support enable or disable minimum shape size **NEW**
4. Layer support to show/hide set of shape with single click **NEW**
5. Support showing line jump in Arc, Square, Skip or normal **NEW**
6. Align Connector Caption Base on Connector Orientation **NEW**
7. Annotation with callout shapes
8. Annotation with freehand shapes
9. Organize model elements and diagrams using Model Explorer
10. Bookmark support
11. Handi-Selection tool
12. Customizable data types for use with multiple programming languages
13. Resource-centric interface
14. Model sharing
15. Cut, copy and paste
16. Copy diagrams as images for use in other applications
17. Undo and redo options
18. Mouse gestures
19. Reverse connector directions
20. Group creation support
21. Jump to feature for selecting a particular shape or model
22. Quick connect feature
23. Easy navigation to connected elements
24. Model commenting
25. Duplicate shapes and models
26. Selectable/non-selectable toggling for shapes
27. Diagram locking
28. Reference to any type of artifact
29. Advanced file and directory selector
30. Advanced tree support
31. Duplicate, move and reconnect connectors
32. Package headers for all types of diagram
33. Sub-diagrams and reference indicators
34. Rectilinear, round rectilinear, oblique, round oblique and curve connector styles
35. Space reclamation or elimination using Sweeper feature
36. Attract shapes using Magnet feature
37. Create shapes with user-defined initial sizes
38. Drag-and-drop creation of shapes using trees in diagrams
39. Auto-fit shape sizes
40. In-line editing
41. Spell checking
42. Visual alignment guides
43. Numerous grid options
44. Diagram information display in diagram
45. Jump to diagram feature
46. Open view from model element
47. Diagram renaming boxes
48. Add folders as favorites
49. Display Undo/Redo action names
50. Inverse shape selection
51. Automatic reroute connector when overlapped with other shapes
52. Hide shapes or type of shapes on a diagram
53. Visualize related model element
54. Enforcing master view between model element and shape
55. Pinnable connector end **NEW**

## Model Transitor

1. Generate and link model elements
2. Trace the origin of model elements (model traceability)
3. Diagram Transitor

## Style and Formatting

1. Manage and apply styles within project **NEW**
2. Customizable shape style and formatting
3. Shape format copier
4. Image incorporation in diagram
5. Rich text documentation
6. Add rich text elements to diagrams
7. Enrich model documentation with images
8. Save/load template for model documentation
9. Display stereotyped model element as image icon

## Team Collaboration with VP Teamwork Server

1. Concurrent and collaborative modeling with VP Teamwork Server
2. Import projects to VP Teamwork Server
3. View projects from VP Teamwork Server
4. Commit project changes to VP Teamwork Server
5. Update local project copy using VP Teamwork Server
6. Review past revisions using VP Teamwork Server
7. Compare past revisions using VP Teamwork Server
8. Undo committed changes by reverting revisions **NEW**
9. Detect and resolve conflicts using VP Teamwork Server
10. Branch and tag projects using VP Teamwork Server
11. Merge branch changes using VP Teamwork Server
12. Export multiple revisions from VP Teamwork Server
13. Run VP Teamwork Server on common Java web servers
14. Element based revision history
15. Preview local and server changes before commit or update

## Documentation Generation

1. PDF report generation
2. MS Word report generation
3. HTML report generation
4. Project publisher
5. Intelligent element sorting during report generation

## Printing

1. Print multiple diagrams
2. Preview printable pages
3. Print clip marks
4. Page margin, size and orientation alteration support
5. Fit-to-pages option
6. Fit-to-ratio option
7. Customizable page header and footer
8. Project name and diagram name display in header or footer
9. Print with frame or border support
10. Toggle gradient color printing
11. Quick print support

## Shape Editor

1. Design arbitrary shapes
2. Import SVG shapes
3. Incorporate different shapes into UML diagram
4. Organize shapes by gallery, category and stencil
5. Advanced shape design capabilities

## Layout Facilities

1. Automatic diagram layouts
2. Shape alignment and centering
3. Uniform shape width and height maintenance

4. Automatic shape distribution

### Interoperability

1. Command-line operations
2. Import and export XML
3. Import and export VP project file format
4. Generate BPEL code for Oracle workflow engine
5. Generate BPEL code for JBoss workflow engine
6. Export diagrams as JPG, PNG, SVG and EMF image files
7. Export diagrams as PDFs
8. Slice exported diagrams into smaller segments
9. Copy diagram elements as XML

### Intuitive User Interface

1. Group diagrams by category
2. Advanced property pane
3. Dockable user interface windows.
4. New project generation using predefined templates
5. Easy-to-use "New Diagram" dialog
6. Flexible zooming
7. Palette-style toolbar
8. Collapsible toolbar
9. Display tool names for toolbar buttons
10. Expand grouped toolbar buttons
11. Display various diagram categories in toolbar
12. Display stereotyped model types in toolbar
13. Numerous looks-and-feels
14. Import user preferences from existing workspaces
15. Multilingual support
16. Searchable options
17. Customizable program shortcuts

### Automatic Updates

1. Automatic online updating
2. Maintain local update server with update synchronizer

### Open Architecture

1. Plug-in support (Java)
2. VP model and XML interaction
